

Dear Arts Superstar,

The summer is coming (Hooray!!!) and in the creative space it offers I wanted to invite **you** to submit a new piece of your awesome art work for display around the school. We have a number of places in school where we need to refresh the visuals – the main hall, the galley and the music department – and I wanted to invite you to create something.

Please respond to one of the following three starting points;

Dynamic

Sound/Silence

Collect

You can interpret these starting points in whatever way you like. You can work in any media and at any scale. ***The work must be complete and submitted to me on the day we come back in September.***

Chosen work will be exhibited before the Open Evening in September.

This is a great opportunity to craft something eye-catching and fresh, and commissions of this kind always look good on your CV and in your portfolio.

Good luck and enjoy!

Mr Hurd-Thomas.
