INTRODUCTION

Able, Gifted & Talented across the whole school aims to raise the aspirations and development for students to achieve their full potential, be that intellectual, physical, creative, or social by providing appropriate challenges in our learning community. Physical Education embraces this notion and aims to provide enriched provision for those students identified as either Gifted or Talented in Physical Education (PE), and in some cases both.

PURPOSE

The provision is designed to enable talented sports performers and those who are more able in PE to reach their full potential by co-ordinating the complex variables involved in developing success. In all cases collaboration is required between the student and a number of different sources including; parents, teachers, coaches, facilities managers and governing bodies, to support and empower them to manage their lifestyle, education, training and performance.

The programme is designed to be tailored to individual needs and ensure that the best possible provision is provided for each student.
