

**Health & Social Care
Summer Study Programme 2016**

This is an optional study programme to help develop your underpinning knowledge for the Sixth Form Health and Social Care Curriculum. You should research the topics listed to develop a basic understanding of them. The majority of these topics will be covered in the Unit delivered after Christmas. Ideally you should produce a set of research notes. At this stage the idea is for you to become familiar with the theories and key organisations and legislation impacting on Health and Social Care. Caveat - You have worked incredibly hard in Year 10 and 11 and you do deserve a break so please spend only 1 hour per week on these activities.

Week 1	<p>Attachment & Emotional Resilience Theory</p> <p>Empathy Theories: Johannes Volkelt Robert Vischer Martin Hoffman Max Scheler</p>
Week 2	<p>Ethical Theories: Consequentialism Deontology Principlism Virtue Ethics</p>
Week 3	<p>Organisations: NHS Department of Health NICE HSE CQC</p>
Week 4	<p>Communication Theories: Argyle Tuckman Berne</p>
Week 5	<p>Legislation: Mental Health Act HRA MCA NHTA Equality Act CA</p>
Week 6	<p>Health & Social Care Roles: If you are interested in pursuing a career in Health & Social Care. Research the qualifications, skills and qualities required for that role and the possible career pathways.</p>
