

## Theory Notes Task: Von Neumann Architecture

1. Define Von Neumaan Architecture

2. Give an alternative name for the Von Neumaan Architecture

3. Identify three features of the Von Neumann Architecture

4. Identify two issues with the Von Neumann Architecture

5. Identify the difference between the Harvard and von Neumann architecture

6. State one limitation of the Harvard architecture

7. Explain how caches can be used as a partial workaround to the Von Neumann bottleneck
