

Art Summer Work

For 5 days this summer (or longer if you wish) please keep a VISUAL DIARY.

This could include drawings (both observational and imaginative), photographs, thoughts and reflections, collected ephemera (e.g. ticket stubs, found objects etc...), and experiments in different media. The objective is to record and express your experience of this time as VISUALLY as possible. On at least one of these days include a visit to an art gallery and make part of your diary for that day a reflective response to your experience.

You can do as many pages as you like for each day (a double page is the very minimum).

The days could be consecutive (i.e. one after the other) or they could be spread out over the summer.
