

Eco Leaders Launch Switch-Off Fortnight at Wembury Primary School

Year 8 Eco Warriors from Plymstock School delivered their first assembly at Wembury Primary School on Monday 26 November. The whole school enjoyed an inspiring and interactive assembly prepared by the students and Mr Taylor.

The children watched as their Head teacher Mrs Evans was covered in blankets and rapidly overheated. This was to represent global warming and the destructive effects of energy usage on the environment.

Children discussed ways of saving energy in their school and homes and were inspired by the young leaders from Plymstock. We will be leading further assemblies in Goosewell and Pomphlett and hope to encourage the children and teachers to think about saving energy where possible.

Leaders will also be leading after school clubs in Hooe and Oreston in the New Year.
