

# Consent for Biometric Registration

Plymstock School operates a 'cashless catering' system in the Galley.

Parents can top up their child's allowance online, using the Parent Pay service which will allow them to biometrically pay at the till. Alternatively a cash top up point is available in school.

This is achieved by fingerprint recognition, but no actual fingerprint data is stored, only a mathematic algorithm (series of numbers) which is unique for each student, making this a quick service at the till points during the busy times.

## PLEASE COMPLETE THE PARENTAL CONSENT FORM BELOW

Student Name .....

Tutor Group .....

Permission for Biometric Cashless Catering      YES  

Parent / Carer signature .....

This form must be returned on the day of your child's induction so that they can be registered for the system and be able to use the Galley

Parents will receive separate notification on how to access the Parent Pay system.
