Dear Parents/Carers

### **Advice and guidance – Coronavirus - COVID-19 - NHS England**

As I'm sure you are aware from today's news the situation with Coronavirus is being monitored daily by our government.

As a school and Trust we are regularly checking updates from the Department of Education (DfE), Department of Health, Public Health England and the Foreign and Commonwealth Office.

I have included the latest advice to schools and parents below from the NHS England as an attachment and further advice below from Public Health England with regards to returning travellers.

We, like all schools, have been asked to support the government's campaign by passing on the following information.

You can access the page here: <https://www.nhs.uk/conditions/coronavirus-covid-19/>

### **Further Guidance - Specified countries and areas with implications for returning travellers or visitors arriving in the UK**

Specific advice has now updated for returning travellers

<https://www.gov.uk/government/publications/covid-19-specified-countries-and-areas/covid-19-specified-countries-and-areas-with-implications-for-returning-travellers-or-visitors-arriving-in-the-uk>

If you have recently travelled and returned from the areas listed in the link. The advice from Public Health England is:

**Category 1:** Travellers should self-isolate, even if asymptomatic, and call NHS 111 to inform of recent travel.

**Category 2:** Travellers do not need to undertake any special measures, but if they develop symptoms they should self-isolate and call NHS 111.

### **What can we all do now?**

A UK wide campaign has been launched to provide clear advice on how to slow the spread of Coronavirus. Please re-enforce the advice given in this campaign with your son/daughter in that the best way to stop the spread of any virus is to promote basic hygiene practices, such as regularly washing hands and always sneezing into a tissue.

The UK Chief Medical Officers have raised the risk to the public from low to moderate. But the risk to individuals remains low.

We will continue to update parents as advice is issued by the UK Government.

Thank you for your cooperation.

Best wishes  
Mr Pearsall
