

Welcome to A Level Computer Science. All of your interim work, assessment and support will be provided via Google Classroom.

This class has been set up already and the first tasks will go live on Monday 27/04/2020 at 9am.

The format of the tasks will be:

1. One or more videos introducing the learning
2. Tasks for you to complete applying that learning.
3. Assessment from either ourselves as teachers or using provided Mark Schemes

The link below takes you to a video with more information about the tasks and how to access the classroom.

<https://www.loom.com/share/852e3df0eb4f4cee81b9cf76555efa93>

If you already know how to access the classroom simply use the class code: xrrqbjn

I look forward to working with you and teaching you for the next two years.

If you are a students joining us from another school

Can you please email srogers@plymstockschool.org.uk telling me that you have applied for the course. I can then liaise with the relevant Heads of 6th form and create an account for you so that you can access the interim learning.

It is important that you use your school email as we will not reply to emails from a student's personal account for safeguarding reasons.
