### **Pathways to STEM Webinar**

‘Pathways into STEM’ recording, which you can find details of below. During this event, we heard from a panel of diverse volunteers working in STEM related roles in transport, horticulture, nuclear and more talking about their job roles, different pathways into STEM and the skills they developed along the way. This video is aimed at post-16 students and lasts around an hour.

## University of Exeter

**This is for year 13 students who hold an offer to study at Exeter in 2021**

### **Offer Holder Visit Days**

If your students are currently holding an offer for the University of Exeter they have been invited to an [offer holder visit day](#) which will provide a range of opportunities to engage with their subject and speak to staff/students from the department and wider University.

### **Informal Zoom Sessions**

In addition to this, through our Discover University programme we are hosting a series of informal [Zoom drop-in sessions](#) during April and May, with current students and staff. Please see attached full details of the sessions.

### **Bespoke Q&A sessions**

I understand how difficult it has been for the current Year 13s to make their choices without being able to visit Universities in person this year. So I would be delighted to set up a quick zoom meeting with offer holders from your school, featuring a current student and member of staff who can field any questions they have about life and study at the University of Exeter. I am happy to set up the Zoom meeting from our side if it makes the process easier.

## University of Exeter

University of Exeter Q&A panels and for requesting access to them. They are available as video versions (YouTube or Vimeo) or audio versions (SoundCloud): <https://www.exeter.ac.uk/teachers/informationandresources/subjectpanels/>

**About the panels:** We have developed a range of insightful and engaging Q&A panels in the following subjects – Anthropology, Arab and Islamic Studies (inc. Arabic language and Middle East Studies), Criminology, Law, Philosophy, Politics and International Relations, and Sociology. Each panel features academics, students, and alumni speakers who offer delightful stories on what inspired them to get into their subject, and informative insights into the subjects themselves, ranging from questions such as ‘*Why study this degree or subject area?*’ to ‘*What useful skills and attributes do graduates from this degree or subject area gain?*’. These Q&A panels are an excellent tool to broadcast in the classroom or to share with students to watch or listen to at home or during free periods who have an interest in pursuing these subjects either at A-Level or degree level. They are available to watch as videos online on YouTube or Vimeo or as audio podcasts on SoundCloud, depending on individual preference.

Virtual Student Shadowing videos that have been created by our Student Ambassadors. You are able to find the videos

### Virtual Paediatric Healthcare Work Experience Event **Saturday 24<sup>th</sup> April, 09:00-13:00, held on Zoom Webinar**

This event is a **free, virtual** outreach event aimed at **16 to 18-year-olds** who are interested in a career in healthcare.

#### **What's the event about?**

- An insight into a variety of healthcare careers
- Opportunity to learn about how multi-disciplinary paediatric teams work together to care for children who are unwell

## What's on offer?

- The chance to ask questions about working in healthcare
- Hear more about applying for healthcare degrees at university
- Discover other opportunities to undertake virtual work experience
- Participate in a Q&A with current university healthcare students and healthcare professionals

This exciting event is a collaboration between paediatric healthcare professionals working across the West Midlands, and healthcare students and staff at the University of Birmingham, providing a unique opportunity for young people thinking about healthcare as a career.

We believe that this event will be hugely beneficial for your students considering a future career in healthcare. **Please encourage students to apply using the following link: <https://bham.onlinesurveys.ac.uk/virtual-paediatric-healthcare-work-experience-event>**
