

Y9 English revision

Step one: Use the two knowledge organisers to revise the key vocabulary and definitions taught so far this year. Read, cover, write [the word and definition] and check is a good technique for this.

Step two: Ensure your knowledge on the plot is secure. If you have missed any lessons or chapters of Lord of the Flies, reread the **Ecopy** of the text [ask your teacher for this] or use the **chapter summaries** attached.

Step three: Use the two knowledge organisers to revise the key knowledge for this unit of work. Create a revision poster for these questions and the answers. Test yourself on this over the next couple of weeks.

In addition to the tasks above, your class teacher will be covering important key learning on character function, character development, big ideas and how to structure an essay. This knowledge will be needed for the Y9 English exam. You should use your exercise book to revise this.
