

Supra-Curriculum Opportunity -

Open to all WEST 6th Form Students

Maritime Engineering Workshop

Tuesday, 21st November, 2-4pm

At Coombe Dean School

We are delighted that Gemma Maynard, Graduate Ports and Maritime Engineer with AECON will be delivering a Careers workshop as part of our Supra-Curriculum offer

This workshop would be great for those studying STEM subjects and anyone who has ever thought about going into engineering

The session will include:

- Information about Maritime Engineering, why the role is important and Gemma's journey to her current role
- A design brief, based on a recent real-life, local engineering need which will challenge your ability to understand a brief, budget, complete technical drawings and teamwork.

Enhance your UCAS/ Higher Level

Apprenticeship Applications with:

Experience of a Real Life Local Project with Real Problems

Experience and contact with an industry professional
